

It Is Well (Portrait Remix)

David Dunn

We just somebody running
You just somebody running
We just somebody running
We never saw it coming We just somebody running
You just somebody running
We just somebody running
We never saw it When the heartache
And the headaches
Take my breath away
When the sun shine
And the moonlight burn my skin
When the sadness overwhelms us
The trouble water rises
When the reasons for my bleeding
Don't make sense And I'm not
I'm not in control
When my world comes
Crashing down around my head
And I, I feel like I've got nothing left
Whoa Whoa
I am not in control
Whoa Whoa
But it is well with my soul When the pressure and depression
Have their way with me
When the hurting and the healing
Feel the same
When the sadness overwhelms us
The trouble water rises
When the reasons for my bleeding
Don't make sense And I'm not
I'm not in control
When my world comes
Crashing down around my head
And I, I feel like I've got nothing left
Whoa Whoa
I am not in control
Whoa Whoa
But it is well with my soul In the sadness that is tearing at my soul
I remember that You always have control

Your love is crystal clear
We just somebody running
You just somebody running
We just somebody running
We never saw it coming
We just somebody running
You just somebody running
We just somebody running
When my world comes
Crashing down around my head
And I, I feel like I've got nothing left
Whoa Whoa
I am not in control
Whoa Whoa
But it is well with my soul
