Pilot (Console Remix)

The Notwist

He's living next the rails
He can tell you things of different cars and trains
Now he's trying the whole day
To switch off time by causing train delayCould be enough
If only he's the pilot
Once a dayCould be enough
If only he's the pilot
Once a dayNot a word to compensate
Not a sentence to describe this desperate state
Not a picture to compare
We step into a room of opaque air
