

# Used to Be In Love

## Dayglo Abortions

I used to be in love with the world  
Until I listened to the leaders words  
I used to hang around with the guys  
When they told me to split I fucking near died I used to be in love I used to go to the horror shows  
Now I don't bother cause I'm one myself  
When I go out the people stare  
Cause I look like a psychopathic killer I used to be in love
