Carnal Lust

[Music: Schulman]
[Lyrics: Schulman]Under the sky of blackened clouds
A moonfog shall arise Seven winds of hate
Awaits...
I raise my sword to the sky
to the sphere where the ravens fly
Seal the sign of the twilight hordeLife, eternal life
You're devoured as one
Dominion of centuries behindAcross the horizon in North
The forces are moving further
Through mountains of snow and ice
They ride...
A century of blood
In the name of dark
Total wrath and pure destructionUpon the throne of infernal blood
I'm the ruler
of a burning kingdom
Blazing skies and winter nights
My princess of fear is bornThe seven keys to the seven gates
Makes my land open wide
The wolves are gathered in the woods
A new era has been born
