# I Remember That

## Prefab Sprout

Nothing sounds as good as, I remember that
Like a bolt out from the blue, did you feel it too?
I remember thatName me one little thing, you'll be wanting to keep
As you give up the ghost, as you sink into sleep
Maybe her face in the morning, maybe his in the evening
Maybe words never spoken, aren't they the ones worth hearing?
Say I remember thatNothing sounds as good as, I remember that
Like a bolt out from the blue, did you feel it too?
I remember thatNothing sounds as good as, I remember that
Like a bolt out from the blue, did you feel it too?
I remember that'Cos that's all we can have, yes it's all we can trust
It's a hell of a ride but a journey to dust
And there's nothing pathetic listing clothes she'd wear
If it proves that I had you, if it proves I was there
Say I remember thatNothing sounds as good as, I remember that
Like a bolt out from the blue, did you feel it too?
I remember thatNothing sounds as good as, I remember that
Like a bolt out from the blue, did you feel it too?
I remember thatDid you feel it too? I remember that
Did you feel it too? I remember that
Did you feel it too?Nothing sounds as good as, I remember that
Did you feel it too?
Like a bolt out from the blue, did you feel it too?
I remember thatDid you feel it too? I remember that
Did you feel it too? I remember that
Did you feel it too? Did you feel it too?
