

Gills and Tails

[Amel Larrieux](#)

i looked at my reflection in the water
thought what an unlikely pair
closed my eyes, held my breath, plummeted down,down,down
and anchored myself therecan't tell how long i've been
in the company of gills and tails
i think i feel my skin
growing scaleschorus
can i come up for air
can i come up, can come up
(repeat 3x)i'm gettin' eaten up down here
i'm just not built like them
the big fish have a monopoly
the little fish get buried in the sandthis here world i'm in
sucks your life out, leaves you comatose
take back your salt and fins
send me a lifeboatchorusi look up with longing at the surface
hypnotized by the way the sunlight seems to ride each ripple
and they do a dance
every ray becomes a beckoning hand
i miss the sweet taste of oxygen
i mistook this for the promised landchorus
