Beauty Queen

Caffiends

You, you're my beauty
You're everything I ever wanted
And all the things I really didn't need
'Cause you're an uptown girl
And your body, it speaks to me
Said, you ever take it to the wild side?
Put the pedal to the floor?
Come, let's break a few rules
Girl, your love is criminal
You look like something straight from a magazine
You're my beauty queen
Slow motion love like a clip on a movie screen
You're my beauty queen
Here's her Victoria Secrets
She puts the G on a string
Make a blind man walk on water
She can make the holy man sin
Over and over and over
You're like the fatal attraction
You're my lifetime addiction
You look like something straight from a magazine
You're my beauty queen
Slow motion love like a clip on a movie screen
You're my beauty queen
Breakfast in the morning
Loving in the evening
Caught up in the moment
Now you got me feenin'
I'm a selfish lover
Let me take it further
After me, there'll be no other
You look like something straight from a magazine
You're my beauty queen
Slow motion love like a clip on a movie screen
You're my beauty queen
You look like something straight from a magazine
You're my beauty queen
Slow motion love like a clip on a movie screen
You're my beauty queen
