

Rebel Music

MC Ren

[Verse 1: MC Ren]

Look at The Vill twenty-twenty

Weak ass niggas done fucked up plenty

Took the rap game, nigga wanted shit

When you with The Vill, make your ass made bill

Homie, niggas twice when we overkill

Video hoes that made them starts, fuck your money, fuck your cars

Nigga spit some hot bars

Wack motherfuckers out here tryna bust

You can trust me they are not hard

Hollywood-ass motherfuckers in here

Always acting like they some stars

If it ain't ruff, nigga it ain't the villain

Ren where you been, homie I've been chilling

Can't believie how y'all fools let these wack motherfuckers in the building

E-A-Ski, MC Ren, yeah nigga I'm back again

Everytime I take a break

Garbage-ass niggas wanna be fake villains and put them back in

Y'all know what time it isIt can only be one villan, Im about to hurt their feelings

Villains ain't got no feelings[Hook] (x2)

Throw your shit in the air

It's that rebel music

Like you don't fucking fucking care

It's that rebel music

Ren about to put it down on fools right now

With that rebel music

It's that rebel music, that that rebel music[Verse 2: MC Ren]Rebel music, niggas off in these streets

Ain't got shit to eat, rob your ass and fall asleep

To that rebel music, motherfuckers bust the police

Can't be black and get peace, that brutality increase

These wack fools don't cease, putting that wack shit out

That bragging about that money shit, we can do it out

Nigga watch your mouth, don't forget I'm the villain

Nigga I gave birth to y'all

Stop to retire to fill you niggas, but to realise y'all wasn't worth the call

First of all, y'all shit be wack, homies ain't gone tell you that

Especially when they kiss your ass and they smoking up your sack

Homie step to the back, villain coming, still alwayz into something

Still all my shit bumping, while all y'all niggas all about nothing

West coast bomb, me and my nigga Ski
Me and my nigga be, like me and my nigga E
Two hard motherfuckers that you can't see

So don't fuck with me, nigga it's that O.G[Hook] (x2)It's that rebel music, that that rebel music (x8)
