

Before the Tear Drops

Vintage Trouble

Before the tear drops
And my world goes full-stop
Love me don't love me not
Tell your mind After this fury falls
These words please do recall
You're my every you're my all Let's rewind
Rewind to a time we wrapped ourselves
in each other
Barely air to breathe
Romance and slow dancing under the cover
Look at me
Lover, look at me
Mine eye spy what I got
And they're welling to the top
So please before the tear drops Say you're still mine baby Rewind to a time we wrapped ourselves
in each other
Barely air to breathe baby
Romance and slow dancing under the cover
Look at me
Lover, look at me Before the tear drops
And my world goes full-stop baby won't ya
Love me don't you love me not
Say you're still mine baby Before the tear drops
Before the tear drops
Before the tear drops
Let's rewind
Hold the line
Baby be kind
Say you're still mine Before the tear drops Say you're mine
