Rose Bouquet

Phil Vassar

We were somethin', you and me Yeah, we had 'em rollin' in the aisles We got it right once, didn't we

We had our shot and missed it by a mileForget the bitter end, can you remember when

We sang, we laughed, they all watched us dance

They circled around us and toasted to forever

We played to win, we never gave in

And we threw it all away, like your rose bouquetPassion flows like a long white gown

But it ain't easy to keep your love alive

We hoped each other would come around

We'll use the lessons for better luck next timeBut how sweet it was back then, do you remember when

We sang, we laughed, they all watched us dance

They circled around us and toasted to forever

We played to win, we never gave in

And we threw it all away, like your rose bouquetWe sang, we laughed, they all watched us dance

They circled around us and toasted to forever

We played to win and we never gave in

And we threw, yeah, we threw it all away

Like your rose bouquet
