

Really Love

[D'Angelo](#)

When you call my name
When you love me gently
When you're walking near me
Doo doo wah I'm in really love with you, I'm in really love with you[CHORUS]
When you look at me
I open up instantly
I fall in love so quickly
Doo doo wah I'm in really love with you, doo doo wah I'm in really love with you
I'm in really love with you[BRIDGE]
All night beside you I'd lay
I love you deep when you come to my bed
Doo doo wah, I'm in really love with you
Ooh wah, I'm in really love with you When you touch me there
When you make me tingle
When our nectars mingle
I'm in really love with you, I'm in really love
I'm not an easy man, to overstand, you feel me
But girl your patient with me
Doo doo wah, I'm in really love with you, I'm in really love with you[CHORUS]
All night I wish for you here
Lay your head beside my hip
Doo doo wah, I'm in really love with you
I'm in really love with you Doo doo wah, I'm in really love with you I'm in really love with you Oh how I love
the little things you do
I'm in really love with you
