

Wants for Dinner

Ciara

I'm right here when he calls me, yeah
I'm right here when he needs me, yeah
I'm the one he screams for day and night, yeah
And always make things alright, alright I'm what he wants, he's what I need
He's on my phone, like a ring tone
Baby, please, like, baby, come home
I'm like, baby, please, then, baby, come home You're mine, you're mine
You're mine, you're mine
You're mine, you're mine
You're mine, you're mine You're mine, you're mine
You're mine, you're mine
Baby, you know that you're mine You can entertain him all day long
But I know what he likes for dinner
You can entertain him all day long
But I know what he likes for dinner You can fit the size all day long
But I'm what he wants for dinner
You can entertain him all day long
But I'm what he wants for dinner You girl, you girl, you girl, you girl
You girl, you girl, you girl, you girl
You girl, you girl, you girl, you girl
You girl, you girl, you girl, you girl There's nothing you can do
To take him away from me, girl
There's nothing you can say
That will ever break him away from me, girl Huff and puff, try all of your stuff
My love is built out of bricks, yeah
And your love is built out of sticks
He knows, he knows that You can entertain him all day long
But I know what he likes for dinner
You can entertain him all day long
But I know what he wants for dinner Girl, you can entertain him all day long
But I know what he wants for dinner
You can entertain him all day long
But I know what he wants for dinner You girl, you girl, you girl, you girl
You girl, you girl, you girl, you girl
You girl, you girl, you girl, you girl
You girl, you girl What he wants for dinner You girl, you girl, you girl, you girl
You girl, you girl, you girl, you girl
You girl, you girl, you girl, you girl
You girl, you girl What he wants for dinner

What he wants for dinner
What he wants for dinner
What he wants for dinner
