

Sun & Moon (Eric Farias Remix)

Above & Beyond

It's raining, it's pouring
A black sky is falling
It's cold tonight You gave me your answer
Goodbye
Now I'm all on my own tonight And when the big wheel starts to spin
You can never know the odds
If you don't play you'll never win We were in heaven you and I
When I lay with you and close my eyes
Our fingers touch the sky I'm sorry baby
You were the sun and moon to me
I'll never get over you, you'll never get over me I'm sorry baby
You were the sun and moon to me
I'll never get over you, you'll never get over me And when the big wheel starts to spin
You can never know the odds
If you don't play you'll never win We were in heaven you and I
When I lay with you and close my eyes
Our fingers touch the sky (I'm sorry baby
You were the sun and moon to me
I'll never get over you, you'll never get over me)
(I'm sorry baby
You were the sun and moon to me
I'll never get over you, you'll never get over me)
