

Bright Red Violent Sex

[Bobaflex](#)

I want to hurt you
Wanna wanna hurt you
Bright red violent sex
The way you like it, the way you like it I want to hurt you
Wanna wanna hurt you
Bright red violent sex I want to hurt you
Wanna wanna hurt you
Bright red violent sex
The way you like it, the way you like it I want to hurt you
Wanna wanna hurt you
Bright red violent sex It's a release for her primal instincts
My love is painful and she'll do anything
Cool blue bruised on her neck and her arms
She likes to fight back, fight back just to get off Just to get off, just to get off
Breakdown
Just to get off, just to get off
Breakdown Just come a little closer
Just come a little closer Hurt me, hurt me, hurt me, hurt me
Make me feel good
Hurt me, hurt me, hurt me, hurt me
Make me feel good Bright red violent sex
Bright red violent sex
Bright red violent sex
Bright red violent sex
