Shadow Flash

Indiana

Have mercy on the fallen,
We all face uncertain dawn
We are tried and still found wanting
'Til there's nothing left at all...
So tell me how this works
Our love's a love that hurts
I look upon you and all I see is misery
Our love's a love that hurts
We share these battle scars
Weighed down by heavy hearts
We fight and pull apart and then we're right back at the start
Weighed down by heavy hearts
You be Kano I'll be Jade
From an earthrealm far away
Caught up in this game play
A reign of terror certain death
Shadow flash there's nothing left
Is this game over yet, yeah yeah yeah
I try to catch my breath
This thing's not over yet
And though my heart is racing I still feel it breaking
I try to catch my breath
You be Kano I'll be Jade
From an earthrealm far away
Caught up in this game play
A reign of terror certain death
Shadow flash theres nothing left
Is this game over yet, yeah yeah yeah
If we were strong we could move on and end this nightmare
We could wish it all away
But I was wrong, for so long I want this nightmare
I won't wish it all away, I won't wish it all away
Wish it all away, wish it all away, wish it all away
I know there's no escape
I wish it all away
And I'm constructing fantasies of you and me
I wish it all away
You be Kano I'll be Jade
From an earthrealm far away

Caught up in this game play
A reign of terror certain death
Shadow flash theres nothing left
Is this game over yet, yeah yeah yeah
