Couldn't We All

Pigeons Playing Ping Pong

All you do is chill, looking for a cheap thrill
Lost your free will? Heres a free refill
Dont see things so black and white
If your mind aint right, youre looking for the wrong fight
Keep it flowin, keep the funk goin
I spit hot fire like Vesuvius explodin
When my mind is light, my rhymes are right
When I think I cant sleep at nightCouldnt we all just get along, couldnt we all?
Couldnt we all just get along, just get along, just get along?
Couldnt we all just get along, couldnt we all?
Couldnt we all just get along, just get along, just get along?The Pigeons be boppin, the bass be throbbin
Droppin funky flows and their jaws start droppin
We got your back like Batman and Robin
Stoppin criminals from poppin their glocks in the club
Cuz we is all about the love
Dancin, romancin, its like were up above
When Im in the street, I move my feet
And I always hear a funky beatCouldnt we all just get along, couldnt we all?
Couldnt we all just get along, just get along, just get along?
Couldnt we all just get along, couldnt we all?
Couldnt we all just get along, just get along, just get along?The Pigeons be flyin
Heavily relying on them Southbound winds that keeps them from dyin
We got the wind pressed against our back
When I see the Flying V, I am so relaxed, I think
Oh to be a bird Id fly
Weavin in and out of the clouds in the sky
When Im flying round my mind is sound
I dont ever wanna see the groundCouldnt we all just get along, couldnt we all?
Couldnt we all just get along, just get along, just get along?
Couldnt we all just get along, couldnt we all?
Couldnt we all just get along, just get along, just get along?
Couldnt we all just get along, couldnt we all?
Couldnt we all just get along, just get along, just get along?
Couldnt we all just get along, couldnt we all?
Couldnt we all just get along, just get along, just get along?
