

Nobody Like You (feat. Jonathan Davies)

Limp Bizkit

I'm convinced
that you hate me
You like to see me cry
It's already a proven fact
And you wait and wait on me to die It's all scary
I find it hard to confide
I would make you see it my way
You give
I take,
you say
You want to be away from me You make me
I've got a reason and I won't let go
You take me down
I've got a reason and I want to know I'm convinced that you fucked me
real good
you did
But I won't let her go
I've got my reasons,
And I'm not even
so I wait on you to die Please take this time for me to be unforgiven
I give my life to you
I lay my life on the line for you You make me
I've got a reason and I won't let go
take me down
I've got a reason and I want to know I got no reason
I got no reason
I got no reason
I got no reason You make me
I've got a reason and I won't let go
take me down
I've got a reason and I want to know
