

# Black Eye

## Steel Train

Oh, black eye, you show me in a painting  
A buildings in chrome  
Well, don't take that pill and I'll take you home  
Oh, I said come on and realize one day you're gonna die  
Oh, break free, we'll be back before the weekday  
Your dad will never know  
That you took the pill and I saw the road  
When the chemicals are in, I said, one day you're gonna die  
Oh, blow up, well, I got a miracle  
And you wanna know why  
You are a home and I am on fire  
When the chemicals are in, I said, one day you're gonna die  
Black eye, you hit, black eye, on me  
I said, and I am your trampoline  
I am your tra-tra-tra-trampoline  
Oh, black eye, you show me in a painting  
A buildings in chrome  
Well, don't take that pill cause I'll take you home  
Oh, I said come on and realize that we can never die  
Black eye, you hit, black eye, on me  
I said, take the pill and I'll watch you sleep  
Drive all night and you let me free  
I said, I'll tell you one more time you're never gonna be  
I am your trampoline
