

Never Want To Live Without You

Eric Benet

I'm known to have a heart that love couldn't find
I used to come and go, no thought of what I left behind
But now somehow I've grown to see the world through brand new eyes
A better world that you showed to me, yes
When you were gone, felt like the stars were pointless to shine
And my, my days dragged on without a cause or reason to find, baby
I'm on my own, I'm just a lonely waste of time
That should be spent with you faithfully
So I never wanna live without you, babe
Never gonna live without you
No, I never wanna live without you, babe
Never wanna live 'Cause you're the biggest part of my life
All of my world built around you
Never make it through without you
All the love you bring to me
I was blind, such a fool but now I see, darling
Just hold my hand wherever we are, it's all me
And now this second chance to start a life and family
I thank the Lord and you for this gift to me
So I never wanna live without you, babe
Never gonna live without you
No, I never wanna live without you, babe
Never wanna live
Without the biggest part of my life
All of my world built around you, babe
Never make it through without you
All the love you bring to me, yeah babe
Thank you for the love
When you knew I was wrong, oh girl
Thank you for the chance
To run back to your arms where I belong, yeah
I don't need to see
Who or what is there on the other side
'Cause you are my love, my life
Until the day I die
Never wanna, never gonna
No I never wanna
I never wanna live, never wanna live
Never wanna live without you, babe
Never gonna live without you
No, I never wanna live without you, babe
Never wanna live, never gonna live
Never wanna live without you, babe
Never gonna live without you
No, I never wanna live without you, babe
Never wanna live, never gonna live
Never wanna live without you, babe
Never gonna live without you
No, I never wanna live without you, babe
Never wanna live, never gonna live
