

God Laughs

Delta Goodrem

When you come from a solid foundation
It freaks you out when the ground starts shaking
And everything around you is breaking
Mom was goin' crazy together to keep it
Dad's two lives he was keeping it a secret
When we found out we couldn't believe it
We're all walking on quicksand
When we're busy making our plans, God laughs
Yes, he does
We're all walking on quicksand
When we think that we understand, God laughs
I've been a sound board tryin' to be neutral
Born in the middle it's hard to be useful
It's been hell if I had to be truthful
Oh, when people grow apart and people can change
But it leaves a lotta mess that someone's gotta clean up
It happened here to the family that I love
We're all walking on quicksand
When we're busy making our plans, God laughs
Yes, he does
We're all walking on quicksand
When we think that we understand, God laughs, God laughs

We're all walking on quicksand
When we're busy making our plans, God laughs, God laughs
We're all walking on quicksand
When we think that we understand, God laughs
And we're so stupid if we think that we control
All the dark matter at the center of this black hole
It's gonna pull us under if we don't let go
We're all walking on quicksand
When we're busy making our plans, God laughs
We're all walking on quicksand
Everybody's walking on quicksand
When we think that we understand, God laughs, God laughs
We're all walking on quicksand
Everybody's walking on
When we're busy making our plans, God laughs
He does, he does, he does

We're all walking on quicksand
When we think that we understand, God laughs
We're all walking on quicksand
When we're busy making our plans, God laughs
We're all walking on quicksand
When we think that we understand, God laughs
