

# Walk On The Water

## Walk on The Water

You look around, staring back at you  
Another wave of doubt, will it pull you under? You wonder  
    What if I'm overtaken? What if I never make it?  
    What if no one's there? Will You hear my prayer?  
    When you take that first step into the unknown  
        You know that He won't let you go  
    So what are you waiting for? What do you have to lose?  
        Your insecurities, they try to hold to you  
    But you know you're made for more, so don't be afraid to move  
        Your faith is all it takes, and you can walk on the water, too  
        So get out, and let your fear fall to the ground  
    No time to waste, don't wait, and don't you turn around and miss out  
        Everything you were made for, I know you're not sure  
        So you play it safe, you try to run away  
        If you take that first step into the unknown  
            He won't let you go  
    So what are you waiting for? What do you have to lose?  
        Your insecurities, they try to hold to you  
    But you know you're made for more, so don't be afraid to move  
        Your faith is all it takes, and you can walk on the water, too  
        Step out, even when it's storming  
        Step out, even when you're broken  
        Step out, even when your heart is telling you  
            Telling you to give up  
        Step out, when your hope is stolen  
        Step out, you can't see where you're going  
            You don't have to be afraid  
    So what are you waiting, what are you waiting for?  
    So what are you waiting for? What do you have to lose?  
        Your insecurities try to hold to you  
    You know you're made for more, so don't be afraid to move  
        Your faith is all it takes, and you can walk on the water  
            Walk on the water, too
