Let It Go

The Goodwill

As you once said I only let them know
What they must
Trying to avoid those moments
But its great seeing you believe
Things that you'll never ever knowSo...
Get out, get out
Before you burn
And you think it's alright
I can't take it anymore
Just want to fall right to the floorSo...
Get out, get out
Before you burn
And you think it's alright
I can't take it anymore
Just want to fall right to the floorSo Crystal's right
The only reason friendship took place
Was the attraction which never faded
Just to leave me jadedGet out, get out
Before you burn
And you think it's alright
I can't take it anymore
Just want to fall right to the floorSo...
Get out, get out
Before you burn
And you think it's alright
I can't take it anymore
Just want to fall right to the floorBodies shaking (bodies shaking)
Things are breaking (things are breaking)
Want to grab ahold of your fat neck
To give you a taste of life
Letting you go
Because that's what you're doing to me
That's what you're doing to meGet out, get out (get out, get out before you burn)
Before you burn
And you think it's alright
I can't take it anymore
Just want to fall right to the floorGet out, get out (get out, get out before you burn)
Before you burn
And you think it's alright

I can't take it anymore
Just want to fall right to the floor
