

# Roll Over and Play Dead

## Portable

Night time falls...You can hear the wind blow  
Rain comes faster cuz of a starless sky  
With your back turned, you don't expose your weakness  
And I guess it's best cause you would never see why  
You chose to make a move you never question  
Your pride stands in the way of what you know is right  
What do you tell your friends when you see them  
Is there anything there or here that isn't nice  
You Go through the motions  
So you can Say  
You Did it, You Did It  
So you can say  
(4x total)Hell broke loose on a Wednesday morning  
Cuz you wouldn't say what needed to be said  
It was halfway through when I saw no reason  
To watch you roll over and play dead  
You go through the motions  
So you can say  
You did it, you did it  
So you can say  
(4x)  
And it's finally over  
And just like that there was nothing more  
No Explaination  
(4x)You go through the motions  
So you can say  
You did it, you did it  
So you can say (1x)  
And it's finally over (2x)  
(repeat whole part)You did it, did it  
And it's finally over
