Worst Case Scenario

Die Krupps

What is happening to me
no one could foresee
I was living on the edge
of catastrophe
thrown off the system
nailed and bare
fish out of water
jumping for air
stranded with no help
outlawed and shunned
luck turned against me
thousand to one
some call it fate
what's my reality
world allied against me
fatal conspiracyI can't take it, I can't take it
I can't take it no more
Worst case scenarioin the elevator to heaven I'm stuck
on the lowest level run out of luck
a downward spiral
is sucking me in
my plans for the future
a case for the bin
no glimmering hope
brightens my night
at the end of the tunnel
there is no light
some call it fate
what's my reality
world allied against me
fatal conspiracy
