

# Ratmouth

## White Zombie

A knuckle duster  
Ts the most deadly  
In the ponderous pace  
Of floating justice  
Single-handed dynamo Take it now, say the way we want  
And not for you to point the finger  
Combustible in a word fuckin'  
Say the word and you'll be free Continue your journey  
Superman say I am we can  
Put you down  
Not a wizard-boy question  
Just a demonstration of definition  
Silver city crusading to the top  
Of a fug'n bone break most  
Vile experiment ready  
To eat your ass Clockface, bigtime  
We are some kind  
Say it like always Clockface, bigtime  
We are some kind  
Say it like always Sound, silence  
Promote the zero  
A steel hammer game from me  
To you but I don't mind the matter  
Ratmouth don't know what you need  
Just know what you want  
'Walking dead' crawling bloodthirsty  
Hollywood demon flower grow in the  
Valley of Love like a freak  
Highway accident Last ride rolling down  
Say hi-density  
Glory stomp gonna  
Make the girl in the room  
In the house turn  
And see that I ain't there
