

You Do You

BTOB

Hope you know
As far as I am concerned, we're through
I am tired of tyna keeping up with you
What made you think you that you could beat the odds?
Running round chasing all them broads
And you can't even say it ain't true
The way you treatin' me, it ain't cool
Go ahead and be the playa you gonna be minus me
So how about you, do you?
And I will be me
I am so ready to move along
So how about you, do you?
And I will be me
I am so ready to move along

I was there six months ago when you had lost your job
And you ain't even have no car
You was coming in and out back and forth
And it was me funding your child support
'Cause you didn't have a dollar to your name
And you still don't have a dollar to your name
And if I stick around, it will be a shame
So how about you, do you?
And I will be me
I am so ready to move along
So how about you, do you?
And I will be me
I am so ready to move along
