

It's Okay to Change

Field Music

Well you can have all you ask for
Though it's not what you want
If you think about it, it's too dirty
But you can have it if you say
It's not the only way to feel happy
It's not the only way to feel happy
It's not the only way to feel happy It does you no good
But you're not that sure
Take time, find out something
That you don't know, if you can't understand that
It's not the only way to feel happy
It's not the only way to feel happy
It's not the only way to feel happy It's not the only way to feel happy
It's not the only way to feel happy
It's not the only way to feel happy
