

Coming Down Fast

Daniel Ash

You look so good
When you're coming down
Like a rocket to the moon
When you're coming down
I want your spirit
When you hit the ground Well, it's six in the morning
And I'm feeling so good
Ain't got no clever words no more
So I won't be misunderstood
You look so good
When you're coming down Sometime I got the blackest spirit
Wants to hold you down
But the diamonds in my heart
Don't worry, won't let you down
You look so good
When you're coming down, coming down
