

Only You

Melinda McGlasson

Chorus: Only You makes cloudy days bright, Only You bring me peace in the night, Only You understand all of me, All my faults, failures, insecurities, Only You believe this much in me, You have no doubts, you see possibility, Only you, I long to please, Only You loves me for me!

Verse 1: Only You can make everything seem right, In a world where everything seems wrong, I place my hopes and dreams, In the palm of your hand, No matter what happens, I know where I stand / Only You, You are all that I need. (Repeat this line)

Verse 2: Only You, have stood beside me when I felt so alone, When the world felt so distant, felt so cold, I surrendered to Your will, You helped my worries and fears be still, I have tried to put my hope in other things, All the tears, joys, the simple and bigger needs, But I'm left empty, there is a void... / Only You, You are all that I need. (Repeat this line) (Repeat Chorus)
