

# Chalice of Repentance

## Prayer for Cleansing

springtime is sorrow, make love  
last until the heart is dead  
frost on the cracked glass, bleaching purity  
ride angel's wings into heaven,  
naked flesh a sick sight  
vomit into hair of sweat, feed  
myself on the lust of humanity  
devour orgasms of blood  
singing an ode of selfishness  
into a sea, putrid recognizance  
a stench of sex so strong, taste  
it on my tongue  
sweet poison caressing taste  
buds until deathdecay - corrode from the inside out  
rot, melt away - the coating of securitynow and forever, burns numbers in my head  
cum to my senses, turn back the clock thricerealization of desperation  
suffer virgin flesh - suffer loneliness  
together rode the wings of  
demons right into hell
