

We're Family

Joe

Somehow my life turned out to be
More than I thought I deserved (oh whoa)
Living a life of luxury
Oooh there's a few bridges
I've had to burn
So those words that my father told me
He sad you got to believe
Keep blood first and you'll go far
Dont forget where you came from
And let the whole world know your name son
You can have anything chase your dreams and dont forget that
We're family (whoa oo whoa)
My brother my sister my father my mother
We're family (were all in here)
My uncle my auntie and all my cuz Now its hard enough trying to survive on these streets
And you cant tell who to trust from the friends you meet
But you living your dream
And you did it your way nobody can take that away
Now those words that my father told me
He said you got believe
Keep blood first and you'll go far
I aint forgot where I came from and now the whole world knows my name
You can have anything chase your dreams and dont forget that
We're family (we're all in here everyone of us)
My brother my sister my father my mother
We're family
My uncle my auntie and all my cuz Yeah yeah
Got a few folks I haven't seen in a while
I'm gonna do something this year
Bring the family together cuz through it all
We're family (ohohoowoah hey)
My brother my sister my father my mother we're family
Hey hey my uncle my auntie and all my cuz yeah yeah yeah yeah
