

# To All The Girls

## Wyclef Jean, Earth, Wind & Fire

[Intro:]

Yo, Wyclef, It's time that I confess (Refugee Camp) to all the girls  
(Don't do it, don't do it)  
[singing] To all the girls I loved before  
[rapping] To all the girls I cheated on before  
[singing] To all the girls I loved before

[Verse 1]

To all the girls I cheated on before, I tip my hat like Willie Nelson  
You got pressure, take a sip of this Molson  
Here's what happened, it wasn't my intentions  
To fall into seduction while playing a temptation  
I thought I had it figured out, but games don't last  
The hourglass ran out, I got sprayed with the tear gas  
Big men don't cry, hold my feelings inside  
Stress brings me ?, I gotta hold my pride  
When I see you with another guy, jealous thoughts of homicide  
Call me selfish when I say Abraham has many wives  
You say this is the 90's, either it's gonna be me or her  
I found myself in a blur  
Lookin' into the clouds thinkin' out loud  
"I'm in love with two women, who is it gonna be now?"

[Chorus:]

To all the girls I cheated on before, it's a new year  
I got a new change of gear, I swear  
I can see clear now the clouds disappeared  
You forgive but never forget, so the past reappears, uh huh  
To all the girls I cheated on before, it's a new year  
I got a new change of gear, I swear  
I can see clear now the clouds disappeared  
You forgive, but you still think that I'm a ho

[Verse 2:]

Second verse is gonna hurt, based on a true life story  
I got married at 24 in New Jersey

You know the feelings start nature take it's course  
Two years later 'Clef gets a divorce  
When I had the cold feet, I shouldn't've walked the altar  
With Dionne Warwick, she could predict my future  
Went with my feelings even though it wasn't right  
Creepin' with my secret lover in the middle of the night  
Back home, break of dawn, dinner's at the table  
Thin Line Between Love And Hate is on cable  
I'm lookin' at myself thinkin' out loud  
"I'm in love with two women, who is it gonna be now?"

[Repeat chorus]

[Break: (includes elements from Rapper's Delight)]

Hotel, (I'm not a) motel, Holiday Inn (you don't believe me though)  
And if your girl acts up at the carnival, then you take her friend  
Hotel, (I'm not a) motel, Holiday Inn (you don't believe me though)  
And if your girl acts up at the carnival, then you snatch her friend

[Break it down right here]

[Verse 3:]

One love, you're lucky to have one love  
It sounds bugged, drinking wine from the same jug  
One heart, one mind, one soul  
She ain't a gold digger, she don't care about your bank-roll  
Keep your money, she make her own cheddar  
All she want from me is respect like Aretha  
Cooked me lasagne, stayed in for the winter  
Chilled to the summer, now I'm gone 'til November  
Have you seen her?  
I think I did  
But what I did wrong was take a love for granted  
Cause first comes trust, don't rush into lust  
Easier said than done, I lust and I must  
Passion is a must, but then we start to cuss  
We was just makin' love, now we tearing up each other's guts  
Like species, she called me an animal  
So feel the tongue of the warm-blooded mammal

[Repeat chorus]

[Outro:]

I'm not a ho [repeat and dimminuendo at the same time]

(You don't believe me though)

I know you're diggin' this

Is it OK if I play my guitar right about now, is it alright?

(You don't believe me though)

Alright (you don't believe me though), alright

People in the back, is it OK if I play my guitar right about now?

Alright, alright, alright, alright

People on the side, is it OK if I play my guitar right about now?
