

Shout It

Parachute Band

She is so innocent
When she speaks a lesson
She is my angel
Sent from above
She's my fire
And my only one desire
She's in the front row
She comes to every show
And I want you to know
(Yeah!)

Shout, shout, shout it
From the rooftop let it out
Shout, shout, shout it
Don't know walkin in and out
I don't know what to say or do
It's so hard to scream it
Shout, shout, shout it
From the rooftop let it out
Shout, shout, shout it
Don't know walkin in and out
I don't know what to say or do
It's so hard to shout it out to you
(It's so hard to shout it out to you)

She is my fire (my fire)
And my only one desire (desire)
She's in the front row (front row)
Yeah, she comes to every show
(And) and I want you to know (C'mon! Yeah!)

Shout, shout, shout it
From the rooftop let it out
Shout, shout, shout it
Don't know walkin in and out
I don't know what to say or do
It's so hard to scream it
Shout, shout, shout it
From the rooftop let it out

Shout, shout, shout it
Don't know walkin in and out
I don't know what to say or do
It's so hard to shout it out to you
(It's so hard to shout it out to you
It's so hard to shout it out to you)

Yeah

Uh-huh

Oh

She's punch and sweet
Her eyes are clean
Take my hand, follow my lead
I know just where she'll be
Row 6G section 3
She's cool, she's hot
She's all I need
Means a lot, a feeling need
When she walks so big and please
Hold my hand so they can see
That's she's with me

C'mon!

Shout, shout, shout it
From the rooftop let it out
Shout, shout, shout it
Don't know walkin in and out
I don't know what to say or do
It's so hard to scream it
Shout, shout, shout it
From the rooftop let it out
Don't know walkin in and out
I don't know what to say or do
It's so hard to shout it out to you
