

Hope & Validation

Bernard Fanning

Plans and preparations are decided in vain
Think we've seen enough now
Hope and validation are united again
Higher than the buds that bloomed
I've seen it hanging in your face
you may need time to think it over
Set a new direction for the harvest ahead
think we've seen enough now
Built the resurrection of a bond nearly dead
Seen enough now
Higher than the windswept moon
I've seen it hanging in your face
You may need time to think it over
Plans and preparations are decided in vain
Hope and validation are united again
Set a new direction for the harvest ahead
Built the resurrection of a bond nearly dead
Think we've seen enough now
Think we've seen enough now
Think we've seen enough now
Think we've seen enough now
