

# Whole Life Story

## Passion Pit

You had something else you had to say  
But it doesn't matter now  
Because we always talk in circles  
Always circling  
Yeah they're talking 'bout our faces  
And it shakes you 'til you cry  
Now you're stuck inside the world  
Getting tangled in the lights And yes it's true, they don't know us  
They don't know me, they don't know you I'm sorry darling, how could I have turned this  
Into such a, darling, difficult position for you  
Sorry darling, how could you forgive me now?  
Our life's whole story [?]  
Don't you let go I made my case, you sat and crossed your arms  
And you didn't make a sound  
You were looking out the window at the city  
Then you turned and said you loved me  
And it took me by surprise  
You were perching in your corner  
And I couldn't see your eyes And yes it's true, they don't know us  
They don't know me, they don't know you I'm sorry darling, how could I have turned this  
Into such a, darling, difficult position for you  
Sorry darling, how could you forgive me now?  
Our life's whole story [?]  
Don't you let go Someone else could make this into something  
Someone else could push you to the side  
And that was then, back when you [?]  
We've got nothing to hide, just give it some more time I'm sorry darling, how could I have turned this  
Into such a, darling, difficult position for you  
Sorry darling, how could you forgive me now?  
Our life's whole story [?]  
Don't you let go
