

# A Bell Will Ring

## Oasis

A little space, a little time  
Seen what it can do  
A little faith, peace of mind  
See what passes through  
The sun will shine on you again  
A bell will ring inside your head  
And all will be brand new  
Come alive, come on in  
It's something that you know  
The world's as wide as your life is thin  
So entertain your goals  
The sun will shine on you again  
A bell will ring inside your head  
And all will be brand new  
All will be brand new  
I can tell you what you wanna hear  
I've been here once before  
You pulled me through my empty nights  
Sleepless on your floor  
The sun will shine on you again  
A bell will ring inside your head  
And all will be brand new  
And all will be brand new  
And all will be brand new
