Spain

The Pnuma Trio

Can we sail to Spain, just me and you?
Open ocean and the bright blue sky above
We'll do you want, do you want the moon?
I'll get it for you
From the top so high to the valley low
I wanna give you whatever you need so just let me know
'Cause all I want is more of you
All I want is you
Give me a dance she says, just take my hand she says
I don't want anything
Let's make a getaway just me and you, babe
The rest of the world can wait
'Cause I've been waiting for you, I've been waiting for you
With the world we know waiting on hold
Do you think that we can really just be alone?
Far from all that seems to keep us apart
I need you so don't leave yet
Find a way to stay even if just for a moment
'Cause all I need is more of you
All I want is you
Give me a dance she says, just take my hand she says
I don't want anything
Let's make a getaway just me and you, babe
The rest of the world can wait
'Cause I've been waiting for you, I've been waiting for you
Give me a dance she says, just take my hand she says
I don't want anything
Let's make a getaway just me and you, babe
The rest of the world can wait
'Cause I've been waiting for you, I've been waiting for you
Give me a dance she says, just take my hand she says
I don't want anything
Let's make a getaway just me and you, babe
The rest of the world can wait
'Cause I've been waiting for you, I've been waiting for you
Been waiting for you, been waiting for you
