

No Spill Blood

Oingo Boingo

Animals came from miles around
So tired of walking, so close to the ground
They needed a change, that's what they said
Life is better walking on two legs
But they were in for a big surprise(What is the law?)
No spill blood
What is the law?
(No spill blood)(And who makes the rules?)
Someone else
Who makes the rules?
(Someone else)What is the law?
(No spill blood)
What is the law?
(No spill blood)
That's rightWho makes the rules?
(Someone else)
I said "Who makes the rules?"
(Someone else)Rules are now written in the stone
Break the rules and you get no bones
All you get is ridicule, laughter
And a trip to the house of pain(What is the law?)
No spill blood
What is the law?
(No spill blood)(Who makes the rules?)
Someone else
Who makes the rules?
(Someone else)We walk on two legs not on four
To walk on four legs breaks the law
What happens when we break the law?What happens when the rules aren't fair?
We all know where we go from there
To the house of pain, to the house of pain
To the house of pain, to the house of pain
To the house of painAnimals came from miles around
So tired of walking, so close to the ground
They needed a change, that's what they said
Life is better walking on two legs
But they were in for a big surpriseWhat is the law?
(No spill blood)
What is the law?

(No spill blood)Who makes the rules?
(Someone else)
And who makes the rules?
(Someone else)We walk on two legs not on four
To walk on four legs breaks the law
What happens when we break the law?What happens when the rules aren't fair?
We all know where we go from there
To the house of pain, to the house of pain
To the house of pain, to the house of pain
To the house of pain, to the house of pain
