Caving

Ovro

Bite the hand that feeds your face
One more thing you can replace
Shut my mouth because ImSpilling all your dirty secretsSlap the wrist of this embrace
You're the one who's losing face
Search the quiet cornersLock the door, I can hear you screaming
Don't wake up, you're not really dreamingWhen your world starts caving in
And I'd still take you inPour the salt straight in my veins
I won't need them anymore
Make the cut much deeperLying on your bedroom floor
I'm giving up, Im giving upWhen your world starts caving in
And I'd still take you in
And if your world filled you with fear
And I'm already hereAnd I've been everything you ever needed
Ever wanted, everything you wished for
And this is how you repay meAnd I've always been right here
You'll play your part and I'll play mine
Even if I don't want toWish I understood the game
But it cost me just the same
Whatever I owe youNever sacrifice the pain
But it always ends, it always ends the sameWhen your world starts caving in
And I'd still take you in
And if your world filled you with fear
And I'm already hereWhen your world starts caving in
And I'd still take you in
And if your world filled you with fear
And I'm already here
