Hole

Fefe Dobson

I'll fake a smile, if you do too, I'd say that I would die for you
When the rain falls down, I watch our colors drown
And it's not alright when you're the sparkle
In my darkest night
You can love me, you can lead me
But we're only digging a hole
Can you save me? When there's just one way
We can go
You're wrong, no matter what you say
We're like the sunlight, we will fade
When you hold my hand and launch me where I stand
Before I land, I wanna give you up but I just can't
You can shake me but you can't make me
'Cause we're only digging a hole, c'mon baby
Stop this crazy
Heart breakin' show
Nothing sacred, ghost white orchid
Just before it dries and bends
I've read this story many times
And I know how it always ends
