

Head Over Heels (remix)

Allure

Yeah, The Firm
Track Masters, Escobar, Allure
Keep it raw
Hey yo, The Bridge, keep rockin'
We comin' through, bottles poppin'
Allure, when your album droppin'
The place is packed
Many faces, there's some I know
And some know me from buying cases
Cash stacks, shorties peepin'
Is she Puerto Rican or half black
Puff, puff give, I need to live
Please pass that so I can zone
Maybe shoot a jewel in baby girl dome
It's a crazy world, lemme drive you home, let's go
By the way, the name's Esco
The platinum range make your man know
We wet those, if he front I got the tech close
To you much respect goes for going through
Had to put it on you, Allure you
You gotta leave, I'll call you, it's been real
Boy, I can't understand it
See I never really felt like I do
When I'm around you, baby
And I just can't explain it
But I'm feeling so high
And I just can't deny it's on you
Tell me you want my love
Baby, please don't deny
What you're feelin' inside
Say you've been thinkin' of
Holdin' me, touchin' me, feelin' my every need
Head over heels, it seems so real
I feel like I'm falling in love
I'm lost inside of my desire
Oh baby, can't you see
I'm falling for ya head over heels
Baby, baby I'm longin'
Just to have you to myself

I don't want nobody else, no
Baby, my body's calling
Won't you come, get my love
Because I really need you so much
Tell me you want my love
Baby, please don't deny
What you're feelin' inside
Say you've been thinkin' of
Holdin' me, touchin' me, feelin' my every need
So much in common, I know you like the way I act
You been around real cats, all your life, since way back
You still got it 'cuz you was turned out once
Guess you learned, ain't no future with them burnt out stunts
Left the hood to get your own thing, we're home team
Pushing through, watch ya chrome gleam
Yeah aight, you probably heard that my pipe gained tight
Rocking V V S stones
Powder blue whips with egg headlights
Center weed gettin' all in your weave, I put out the trees
And crack the moon roof only for you to breathe
You get a extra set of keys, I tell the world while I'm out on tour
Keep your hands off my girl's Allure
Baby, can't you see
How you make me feel
Oh baby, can't you see
I'm falling for you head over heels
It seems so real
I feel like I'm falling in love
I'm lost inside of my desire
Oh baby, can't you see
I'm falling for you head over heels
It seems so real
I feel like I'm falling in love
I'm lost inside of my desire
Oh baby, can't you see
I'm falling for you head over heels
It seems so real
I feel like I'm falling in love
I'm lost inside of my desire
Oh baby, can't you see
I'm falling for you head over heels
