

# It's Like

## Marty Ray Project

### Verse

It's like blood from a turnip  
Or money from a tree  
This real life story book we wrote  
Says you are the beauty  
And I am the beast  
It's like needle in a haystack  
Or a diamond in the rough  
I'll bleed on every battle ground  
Just to feel your love cause . . .

### Chorus

One, two, three, four  
I wrote another song  
Baby just for, for  
You to sing along  
My heart skips beats  
It gets harder to breath  
Every time you're around me I fall  
Head over heels again baby just call  
This life we're living in silver linings  
Single drop in the sea

### Verse

It's like hope for tomorrow  
Or living in a dream, yeah  
Or breathing for each other  
Believing things that cannot be seen  
It's like a penny for my thinking  
Or a, an alabaster box  
Or two knights when you are in need  
Said, I'll give you everything that I got cause . . .

### Chorus

One, two, three, four  
I wrote another song  
Baby just for, for  
You to sing along  
My heart skips beats

It gets harder to breath  
And every time you're around me I fall  
Head over heels again baby just call  
This life we're living in silver linings  
A single drop in the sea

Bridge  
Oh oh yeah  
Hallelujah  
Glory glory  
Every time I think about ya, said

Verse  
Credit where credits due  
Said perfection when God made you  
My friends are jealous of the card I drew  
Sometimes baby its even hard for me to chew, cause . . .

Chorus  
One, two, three, four  
I wrote another song  
Baby just for, for  
You to sing along  
My heart skips beats  
Gets harder to breath  
And every time you're around me I fall  
Head over heels again baby just call  
This life we're living in silver linings  
Single drop in the sea, yeah now  
One, two, three, four  
I wrote another song  
Baby just for, for  
You to sing along  
My heart skips beats  
It gets harder to breath  
And every time you're around me I fall  
Head over heels again baby just call  
This life we're living in silver linings  
Single drop in the sea

It's like a fairy tale, you and me
