Place In My Heart

David Jordan

Ego don't ever get you anywhere
But now I know to speak up
Let my voice be known
I won't sit back pretend
My name hasn't been calledAs if I'm running from my goal
I'll face the music with my soul
Don't talk to me like I am just a child
I've sold more stories than you've ever toldDon't be fooled
Softest touch but selfish growth
This driving force won't let me goIf you tell give me truth
Should be something plain to see
And you don't even know
What the truth is meant to beListen to what I say
'Cause unassailably
And scientifically
It's on the moneyAdvice is something we can choose to take
I've learned from teachers
That could orchestrate this whole wide worldYou've got to think between the lines
And on your feet
Step up to the grade with no defeat
Appearances are deceptive, look at meIf you tell give me truth
Should be something plain to see
And you don't even know
What the truth is meant to beListen to what I say
'Cause unassailably
And scientifically
It's on the moneyYou'll say what you can
To try and break my stand
You just try your best
But I'll keep on bouncing back
It's all in your head
Go deal with that insteadOn the money
On the money
On the moneyIf you tell give me truth
Should be something plain to see
And you don't even know
What the truth is meant to beListen to what I say
'Cause unassailably
And scientifically

It's on the moneyIf you tell give me truth
Should be something plain to see
And you don't even know
What the truth is meant to beListen to what I say
