HOOK

My soul says yes

My soul says yes Lord yes

It's right here crying out

Right now to give you praiseV1

There was a time when I was searching for the Lord

Didn't know which way to turn, I was going back and forth

Had to rest my weary legs, fatigue was setting in

Then right there I heard a voice say, "I come to give you rest"HOOKV2

Then right there I realised God was by my side

He wanted to be the, guide of my life

So I put my hands in His hands and let Him lead the way

Since that time we've been together, to this very dayHOOKV3

You could be like me, lost, trying to find your way

Looking for a friend that will help you night and day

Don't you be discouraged, and don't you even fear

Jesus is the answer for the world todayBRIDGE

Are you hungry, thirsty can't be filled

Sitting at the wrong table, can't get served

Why don't you, sit right here, God is serving soul food

He's the bread of life

That's rightOUTRO

Everybody just give him praise

Everybody just give him praise
