

Little Romance

Ingrid Michaelson

You're in the mood for love
You're in the mood to dance
You're in the mood for a little romance
You're in the mood for love I see you've pressed those pants
I see you've styled that hair
There doesn't seem to be much of it there
You're in the mood to dance Can I have this chance
To be your little romance?
Can I have the stance?
I'm in the mood for love I'm all dressed up tonight
I've waited all night long
When will they finally play your song?
I'm in the mood to dance Can I have this chance
To be your little romance?
Can I have the stance?
I'm in the mood for love
I'm in the mood for love If it's the only chance I get
If it's the only chance then get
Ready to throw your shoes away
For I will sweep, sweep, sweep You're off your feet
I will sweep, sweep, sweep
You're off your feet
To be your little romance Can I have this chance
To be your little romance?
Can I have the stance?
I'm in the mood for you
You are in the mood for me
We're in the mood for love
