The Remedy

Reed Foehl

Somewhere over make believe
You came along to rescue me.
Rode up on your big white horse,
let me ride off course, set my spirit free.How to love again,
flesh and bones, heart and soul.
Sweet sunshine, come in.And all this crazy sorrow,
we give it up we give it up we give it up
in hopes for tomorrow, I'm sayin'
Love finds it's way like a beautiful day;
it comes around again just in time my friend.Take me from this dim lit street
and walk with me on the beach, never end.
Feel the sand beneath our feet
How to be complete once again/And all this crazy sorrow,
we give it up we give it up we give it up
in hopes for tomorrow, I'm sayin'
Love finds it's way like a beautiful day;
it comes around again just in time my friend.It's in our blood;
it hurts, we bleed.
It's the sweet cause of misery.
It's love; the remedy.
It's in our hearts, it's everything we need - everything we need.And all this crazy sorrow,
we give it up we give it up we give it up
in hopes for tomorrow, I'm sayin'
Love finds it's way like a beautiful day;
it comes around again just in time my friend.
