

# Sugar Cane

## UFO

Riding high up on Black Horn Ridge  
Crossing over the Tallahatchie Bridge  
Pour me a trigger nail of sparkling kind  
This road is gnarly and it's weather lined  
Fall, she's the colour of rain  
Kiss away my pain  
My sugar cane  
I said fall, she's the colour of rain  
Kiss away my pain  
I saw the badlands in the mirror light  
I saw my lover run as she took flight  
If I could get home just on time  
Before some sucker tries to take what's mine  
I said fall, it's the colour of rain  
Kiss away my pain  
My sugar cane  
I said fall, she's the colour of rain  
Kiss away my pain  
She's my sugar cane  
I do righteous now outside the law  
I've got something worth fighting for  
Give me a kiss now one last time  
I'll send you spinning like a capital crime  
I cut you slack with your fancy walk  
I give you space with your fancy talk  
What I won't do is give up to you  
I got something special that you never knew  
Fall, she's the colour of rain  
Kiss away my pain  
Sugar cane  
Fall, she's the colour of rain  
Kiss away my pain  
Oh sugar cane  
I said fall, she's the colour of rain  
Kiss away my pain  
My sugar cane  
I said fall, she's the colour of rain  
Kiss away my pain  
Never again  
Kiss away my pain
