

Recipe for Disaster

Escape the Fate

I'm a recipe for disaster
I'm a recipe for disaster
I'm a recipe for disaster I guess I'm having myself one of those days
I itch so deep that I scratch until I bleed
I'm built on destruction
With no fear of repercussion I'm a recipe for disaster
I'm the murderer happy ever after
You should stay away
Or you'll have hell to pay
I'm a recipe for disaster
I'm a recipe for disaster
No follow motherfucker, I'm the only master
I won't stop even though I should
I can't help myself cause it feels so good
This world did this to me
Though I avenge myself through blasphemy
Fuck me, I piss so fuck you
I'm the monster you made, it's so nice to meet you
(I don't play with others, proceed with caution) I'm a recipe for disaster
I'm the murderer happy ever after
You should stay away
Or you'll have hell to pay
I'm a recipe for disaster Bite your tongue before I cut it out, cut it out
Bite your tongue before I cut it out
Bite your tongue before I cut it out, cut it out
Bite your tongue before I cut it out
I'm a recipe for disaster
I'm the murderer happy ever after
I'm a recipe for disaster
I'm the murderer happy ever after
You should stay away
Or you'll have hell to pay
I'm a recipe for disaster
I'm a recipe for disaster
