New City

The Fold

Im not listening Im over it
Sending it over and out
It isnt alright to reside in this town anymore
And what for?Call all my good friends
Tell them its come down to this
I always said that theyd know where to find me
All else fails and Im running on ocean timeThis citys colder than it used to be
Sometimes I wonder can anyone else see?
My hearts not broken but it seems to be
Ignoring meIm not listening Im over it
Sending it over and out
It isnt alright to reside in this town anymore
And what for?This citys colder than it used to be
Sometimes I wonder can anyone else see?
My hearts not broken but it seems to be
Ignoring meMidnight is where the day begins
Get up and get over it
The darker the berry
The sweeter is the wineMidnight is where the day begins
Get up and get over it
The darker the berry
The sweeter is the wineMidnight is where the day begins
Get up and get over it
The darker the berry
The sweeter is the wineThis citys colder than it used to be
Sometimes I wonder can anyone else see?
My hearts not broken this time but it seems
Ive just spent to long in this place I believe
Ill start again today in a new city
