## **New City**

## The Fold

Im not listening Im over it
Sending it over and out
It isnt alright to reside in this town anymore
And what for?Call all my good friends
Tell them its come down to this
I always said that theyd know where to find me

All else fails and Im running on ocean timeThis citys colder than it used to be

Sometimes I wonder can anyone else see?

My hearts not broken but it seems to be

Ignoring meIm not listening Im over it

Sending it over and out

It isnt alright to reside in this town anymore

And what for? This citys colder than it used to be

Sometimes I wonder can anyone else see?

My hearts not broken but it seems to be

Ignoring meMidnight is where the day begins

Get up and get over it

The darker the berry

The sweeter is the wineMidnight is where the day begins

Get up and get over it

The darker the berry

The sweeter is the wineMidnight is where the day begins

Get up and get over it

The darker the berry

The sweeter is the wineThis citys colder than it used to be

Sometimes I wonder can anyone else see?

My hearts not broken this time but it seems

Ive just spent to long in this place I believe

Ill start again today in a new city
